

Last night our Y9's participated in the First Give Presentation Programme. The First Give programme inspires and empowers young people to take action to make a positive change in society. They are a charity who work in partnership with schools to deliver innovative and interactive programme. Year 9 tutors had the task of raising money and awareness of a charity. We'd like to congratulate 9R on their amazing presentation and for winning £1000 for Orchid, a charity that helps victims of male cancer.
